Site Supervisor PORT MOODY, BC

We are currently recruiting for a Site Supervisor to join our team in Port Moody. We are a leading firm in the fields of environmental remediation, reclamation, and natural sciences throughout British Columbia. Our specialty is upstream oil and gas; however, we provide a broad array of environmental services with offices in Fort St John and Port Moody, BC.

POSITION OVERVIEW

As the Site Supervisor, you are responsible for the safe completion of field work programs, data management and preparation of factual reports under the direction of a Project Coordinator or Project Manager. You deliver excellent client service and build confidence in your relationships through solid decision making abilities. This position supports Remediation, Reclamation or Natural Sciences projects located in Northeast, BC. and includes significant field work activities.

Specifically, you will

- Lead the investigation, remediation, reclamation or natural sciences field activities in accordance with regulatory requirements and SynergyAspen's preferred operating procedures;
- Provide technical report writing;
- Assist with preparation of scopes of work, and cost estimates;
- Adhere to client-specific and SynergyAspen's Health and Safety policies and a commitment to health and safety as an integral component of all activities;
- Ensure timely delivery of assigned tasks;
- Provide high quality data, safely and on time;
- Provide excellent customer service to clients, maintaining a positive, cooperative attitude when working alone or as part of a team.

Qualifications Requirements

- Candidates with an A.Ag. or P.Ag. designation preferred;
- Two year Technical Diploma or Degree in Environmental Sciences;
- Experience with pipeline and/or construction monitoring, ALR soils, vegetation, reclamation, and erosion control;
- Must have field experience in Northeastern BC and be available to work in the Fort St. John area and possibly alternate locations, as needed;
- Four to six years related remediation/reclamation/natural sciences field experience preferred, but not mandatory;
- Possess clean driving record and able to provide acceptable driver's abstract;
- Good oral and written communication skills, attention to detail;
- Proficient with Microsoft suite and using database programs;
- Must be able to work in a safe and responsible manner at all times.

How to apply

To access the detailed Job Description and submit your application, please go to the Careers Page and open the “current Opportunities tab” at our Website: www.synergyaspen.ca

Or, apply directly by email: careers@synergyaspen.ca

*No direct inquiries at this time please.

*We thank all interested applicants for their interest but only short listed candidates will be contacted.
